

Legend

The legend defines three types of relationships between terms and synonyms, categorized by their source:

- From Established Standards (Green Arrow):** A solid line with a green arrowhead pointing from left to right. Example: Child → Parent.
- From Meta-level Collections (Blue Arrow):** A solid line with a blue arrowhead pointing from left to right. Example: Synonym — Synonym.
- From Papers and Other Documents (Black Arrow):** A solid line with a black arrowhead pointing from left to right. Example: Term — Synonym to Both — Term.

Relationships involving implied terms are shown with dashed lines:

- Implied Parent:** Child — Implied Parent.
- Implied Synonym:** Implied Synonym — Implied Synonym.
